

FACE OF PLASTIC SURGERY FOR BAY AREA WOMEN

*Karen M. Horton, MD, MSc,
FACS, FRCSC*

DR. KAREN HORTON is one of very few women Plastic Surgeons in the Bay Area. In private practice since 2006, Dr. Horton focuses on cosmetic surgery for women of the face, neck, breasts or body and complicated breast reconstruction or cosmetic revision cases.

A Marin resident and mother of fraternal twin girls, Dr. Karen sees fellow Marin Moms in consultation for Mommy Makeover procedures including breast augmentation, breast lifts or reductions, tummy tucks, liposuction, labiaplasty and non-surgical cosmetic treatments such as Botox and other neuromodulators, dermal fillers, IPL and CoolSculpting.

Dr. Horton's entire office team is dedicated to providing EACH patient with the most comfortable, unintimidating and positive experience, from the first email or phone call to the final results! She treats her patients like a good friend or family member, is available to them 24/7, and demands the very best results, no matter how minor the procedure. A perfectionist is exactly what a Plastic Surgeon should be!
